Location: Spain | Right to Work: EU & UK (Unlimited)

SUMMARY

AI Engineer who scaled an AI content pipeline 10x and reduced core database execution times by 90%. Advanced in high-performance Python, AI-powered backends (Google Enterprise Agent Platform, PostgreSQL) and cloud computing platforms (GCP), with a Google Cloud Professional Machine Learning Engineer certification. Native English and C2 Spanish speaker with a track record of automating and optimising complex data workflows.

EXPERIENCE

Mid Software Engineer (Promoted from Software Engineer, November 2025) | StudyHall AI | July 2022 – February 2026 | London, UK (Remote)

- Scaled a production GCP-native content pipeline **10x (from tens to hundreds of documents/hour)** by re-architecting Vertex AI and Gemini workflows, migrating from Pandas to Polars, implementing Redis, effectively eliminating race conditions and removing redundant data loads in Cloud SQL and BigQuery.
- Independently maintained and optimised the company's primary CloudSQL Postgres database, reducing execution time of complex SQL queries by approximately **90%**.
- Developed and optimised FastAPI REST backend services deployed with Kubernetes supporting planning, assessment, reporting, module generation and examination workflows **used by thousands of users**.
- Designed and implemented Python data ingestion pipelines replacing legacy VBA workflows, reducing content ingestion time by approximately **90%**.
- Reduced GitHub Actions-based seeder runtime **from hours to minutes** by refactoring N+1 queries in a TypeScript Postgres-to-MongoDB pipeline.
- Developed internal tools using Retool and Streamlit (deployed with Cloud Function), automating repetitive workflows for the Curriculum / Data team and aided in decision-making through dashboards.
- Mentored junior engineers through code reviews and technical guidance, promoting engineering best practices and improving code quality.

English Teacher (TEFL) | Your Language Club Getafe | October 2021 – July 2022 | Madrid, Spain

- Delivered over 400 English lessons, strengthening communication skills and the ability to explain complex concepts to diverse audiences.

Database Administrator | Ministry of Furniture | October 2017 – October 2021 | Neath, UK

- Independently maintained and optimised MySQL and Microsoft SQL Server databases supporting over 6,000 products and 300,000+ product variants.
- Reduced annual catalogue update time by approximately 80% by automating manual processes using SQL and VBA.

SKILLS

- **Computer Languages:** Python, SQL, PL/SQL, TypeScript, JavaScript, VBA, HTML, CSS, Neo4j Cypher
- **Frameworks:** FastAPI, Pydantic, Numpy, Pandas, SQLAlchemy, SQLAlchemyModel, BeautifulSoup, Django
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis, Neo4j
- **Tools:** GitHub, Docker, Google Cloud (GCP), Sentry, Retool, Streamlit, JIRA, Claude Code, Gemini CLI, Codex
- **Natural Languages:** English (Native), Spanish (C2), Portuguese (B1)
- **Certifications:** Google Cloud Professional Machine Learning Engineer (PMLE), DELE C2 Spanish, TEFL Distinction

PROFESSIONAL DEVELOPMENT

February 2026 – Present

- Successfully completed the Google Cloud Professional Machine Learning Engineer exam after fully completing the PMLE path in Google Skills.
- Built and deployed a personal portfolio website (micah.es).
- Completed advanced training in System Design, Software Architecture, SOLID principles and Data Structures & Algorithms.
- Continued developing Portuguese language skills.
